

PRALIPOINT S.A. IMPORT EXPORT

About Us

- PRALIPOINT S.A. was established in 2011 in Montevideo, Uruguay.
- We make business in the charcoal import export field, throughout many countries such as Turkey, Lebanon, Portugal, Italy, Greece, Cyprus and Spain.
- We are an independent private owned company, that doesn't belong to any other larger business group keeping things as easy as possible.
- It has been a long road since we started operating, since then we have always been a reference company in the charcoal business.

- PRALIPOINT S.A. main activity, consists in quality controlling the whole process, from producing to shipping the Marabu charcoal and delivering it on time. Our success, can be defined as taylor made supply for our customers that can be found throughout Turkey, Lebanon, Portugal, Italy, Greece, Cyprus and Spain.
- Our company has prioritized customer satisfaction, and to achieve this we set up a highly professionalized team. We are committed to quality products and quality service. We will deliver a fast and effective solution, for any kind of problem we might find, while supplying our customers.
- We take pride, in the fact that our suppliers are among the largest and most reputed in the different regions we operate. While having the right product is important, giving our customers our best attention and supplying on time is a must.

Production process

- Charcoal is a flammable hard material obtained by heating tree wood at very high temperatures (700° C) in absence of oxygen. The process is carried in special ovens. When done the traditional way, it takes from 10 to 12 days, to turn the wood into charcoal. It takes about 4 tons of wood to obtain 1.5 tons of charcoal. After the charcoal is cold, it is taken to the warehouse, where it is grouped by size and granulometry, packed in 20 kg. polypropylene bags and tagged.

Package and weight details

- We supply the coal in laminated polypropylene bags.
- One 40 feet container weights between 19 and 21 metric tons.
